The Wednesday Word – A 21st Century Mission Sharing the Word of God

I am glad to offer a word of encouragement and endorsement for *The Wednesday Word*. At this time it is very important that we explore and share as many ways as possible of attending to the Word of God and finding a home for it in our hearts. The role of the family in this is crucial.

The materials produced by *The Wednesday Word* are designed precisely to help family reflection on the Word of God linked to the celebration of Sunday Mass. I am assured that this lay initiative, which has the full support of the Bishop of Leeds, is bringing remarkable graces to many, encouraging them in a renewal or return to faith and deepening that faith.

I offer my prayers and encouragement not only to those who provide this material but also to all who use it.

With my prayers and blessings,

+ Vincent Nichols
